

SABOR PREMIUM AS

Very abrasion resistant heavy duty blast hose. With an exceptionally high abrasion resistant value to ISO DIN 53516 up to 35mm. This guarantees a longer lifespan of the hose.

Properties

Material inner wall	Anti-static NR
Material outer wall	NR/SBR
Characteristics outer wall	Abrasion resistant, Resistant to oil containing air, industrial water and glycol, Weather- and ageing resistant
Type reinforcements	Strong synthetic textile reinforcements, Anti-static wire
Temperature range °C	-40°C/+70°C
Norm	ISO 4649
